Teresa Hitchcock
County Executive Officer

Introduction

The Calaveras Council of Governments (CCOG), a Joint Powers Agency established by the City of Angels Camp and County of Calaveras, is responsible for the coordination of regional transportation planning in Calaveras County. The regional transportation system is a vital element of our community, helping to support economic health and quality of life, while providing for the mobility of goods and people. The regional planning process is continuous in order to respond to the changing needs of the County and City and serves to develop strategies for operating, managing, maintaining, and financing the region's transportation system.

The Core Functions of the CCOG include the following:

- Administer and allocate funds under the Transportation Development Act (TDA).
- Receipt and approval of claims for Transportation Development Act (TDA) funds.
- Coordinate Unmet Transit Needs.
- Coordinate, support, review, and rank Federal Transit Administration (FTA) grant programs.
- Update the Coordinated Public Transit Human Services Transportation Plan.
- Coordinate the Social Services Transportation Advisory Committee (SSTAC).
- Ensure timely fiscal and performance audits.
- Prepare the Annual Overall Work Program (OWP).
- Administer the Regional Transportation Planning process.
- Update and adopt the Regional Transportation Plan (RTP).
- Adopt and Monitor the Regional Transportation Improvement Program (RTIP).
- Oversee the delivery of the State Transportation Improvement Program projects (STIP).
- Coordinate, consult, and collaborate with Federally Recognized Tribes and Tribal Communities.
- Conduct outreach efforts to the traditionally under-represented and under-served populations such as the elderly, persons with disabilities, minority, or persons of limited means.

The Overall Work Program (OWP) serves as the primary management tool for the Calaveras Council of Governments. This one-year scope of work establishes regional transportation planning objectives for the fiscal year, assigns institutional responsibility for tasks, and includes the methods, schedules, and the funding levels needed to achieve the listed activities. The FY 2026-27 OWP is a product of the collaborative efforts of the County and City and will serve as the CCOG's directive for use of funds. The FY 2026-27 OWP is consistent with the 2017 Regional Transportation Planning Handbook as prepared by California Transportation Commission.

The OWP has a number of important characteristics:

- The Work Program Supports the Region's Transportation Goals. The CCOG's primary objective is to develop a programming and funding strategy that will lead to the successful implementation of the Regional Transportation Plan.
- The Work Program reflects a commitment to public information and outreach.
- The Work Program reflects the Core Functions of the CCOG.
- The Work Program has been developed in compliance with all state and federal planning requirements.
- The Work Program has been developed with the support and collaboration of the CCOG Member Agencies.

The development of the CCOG OWP is a collaborative process of the Member Agencies. The FY 2026-27 OWP reflects the realignment of project management roles among the CCOG, Calaveras County, and City of Angels Camp. Project-specific Work Elements are grouped according to focus area and importantly grouped to delineate CCOG Core Functions. The CCOG has created a Web-Based Capital Improvement Plan (CIP) to streamline and improve project communication and coordination. All approved City and County Projects are identified in detail in the CIP.

To remind our readers, CCOG developed a Web-Based transportation program management system that allows multiple users to access single source project information. This dynamic database includes programming information, invoice tracking, report development and a document library. In addition to serving as a project management dashboard, the information is also served through the web to Board Members, City Councils, Caltrans and members of the public. The CIP importantly offers the Council the ability to view project schedules and make funding decisions based on capacity for project delivery. The CIP includes fourteen projects, including CCOG planning projects, totaling approximately \$18 million. With the development and implementation of the Web-Based CIP the CCOG has the capacity to coordinate the planning, funding, and implementation of all programs administered by the agency. The CIP is currently available to the public online at www.ccogcip.com.

In short, CCOG Successes for 2025/26 Include the Following:

- Program Support and Grant Funding for the Advancement of the Wagon Trail SR 4 Realignment Project, PS&E, ROW, CON
- Initiation and Completion of Annual Financial Audits for TDA Fund recipients (CCOG, Transit, Streets and Roads)
- Completion of the Annual Unmet Transit Needs Process and Report
- Monitoring of programmed RTIP funds
- Partnered with Caltrans on the Wagon Trail Project instrumental in utilizing Regional Funding
- Facilitation, and/or Attendance at Regular Meetings: TAC, CCOG, SSTAC, EMG, RTPA, RCTF, CTC, CalCOG
- Quarterly SSTAC Meetings and Adoption of Annual Work Plan
- Administration of the Transportation Development Act (TDA)
- Development of federal and state grant applications and technical assistance to local jurisdictions
- Development of Oversight of CCOG Operation Budgets and the Overall Work Program
- Assist City and County in Project Delivery of CCOG Funded Projects – TCEP, CMAQ, CARB and RSTP
- Reprogramming and allocation of funds for completion of City and County infrastructure improvement projects
- Continued Development and Refinement of the Web-Based Capital Improvement Program (CIP), a tool for Project Tracking and Fund Monitoring
- Completion of the Regional Transportation Plan (RTP)
- Completion of the Calaveras County Short Range Transit Plan
- Completion of the Calaveras County Active Transportation and Recreational Trails Plan
- Initiation of the Greenhouse Gas Emissions and Greenhouse Gas Reduction Plan Phase 2
- Initiation of the Calaveras County Travel Demand Model Update
- Development and Update of CCOG Logo and initiation of CCOG Website

COUNCIL AND COMMITTEE FORMATION

Through the creation of a Joint Powers Agreement (JPA) in 1998 the Calaveras Council of Governments (CCOG) has served as the designated Regional Transportation Planning Agency (RTPA) for Calaveras County. As the RTPA, the Council coordinates regional planning efforts for both Calaveras County and the City of Angels. The CCOG is comprised of seven members, two from the Calaveras County Board of Supervisors, two from the Angels Camp City Council and three Citizen “at large” members. The Citizen members serve 2-year terms and are appointed by the elected members, who are appointed by their respective bodies on a yearly basis.

There are three (3) standing Committees that serve in an advisory capacity to the Council. Critical to the success of the CCOG is the Technical Advisory Committee (TAC), Social Services Advisory Committee (SSTAC), and the Executive Management Group (EMG), all of which serve as clearinghouses for technical and administrative items that go before the full Council.

The TAC is advisory to the CCOG on all matters relating to regional transportation planning including but not limited to: the development of the Regional Transportation Plan (RTP), Regional Transportation Improvement Program (RTIP), and the Annual Overall Work Program (OWP). Membership of the TAC consists of the CCOG Executive Director, County Public Works Director, County Planning Director, City Administrator, City Engineer, and Caltrans District 10 Director or designee. Meetings are held monthly on the third Wednesday of the month.

The SSTAC is intended to be advisory to the CCOG on matters pertaining to the transit needs of transit dependent and transit disadvantaged persons. The input and recommendations of the SSTAC shall be considered in, and made an integral part of, the CCOG's annual "Unmet Transit Needs" hearing and findings process. The SSTAC is comprised of a myriad of representatives of potentially transit dependent segments of the community (e.g., senior citizens, persons with disabilities, persons of limited means, etc.) and transit operators. SSTAC members are appointed by the CCOG. CCOG staff and the Caltrans District 10 Transit Representative are ex-officio members of the SSTAC. The composition of the SSTAC, the terms of SSTAC appointments and precise responsibilities of the SSTAC are found in and controlled by Section 99238 of the Public Utilities Code (PUC). Meetings are held at least quarterly.

The Executive Management Group, comprised of the CCOG Chair, Vice Chair, CCOG Executive Director, County Chief Executive Officer and City Administrator, will meet at least quarterly, or as necessary. All action items related to budget, policy, personnel, and other matters related to the administration and management of the organization will be reviewed by the EMG prior to presentation to the CCOG Board for approval.

CALAVERAS COUNCIL OF GOVERNMENTS

ORGANIZATIONAL CHART

REGIONAL SETTING

Calaveras County is located within the Foothills of the Sierra Nevada Mountain Range approximately 133 miles east of San Francisco and 85 miles southeast of Sacramento. The County was incorporated in 1850 and is bordered by Alpine County to the east, Tuolumne County to the south, Amador County to the north, and Stanislaus and San Joaquin Counties to the west. Calaveras County is rural with a population density of approximately 44 persons per square mile (0.6 persons per acre). The topography varies from land elevation near sea level in the west to approximately 8,000 feet in the eastern mountains. The only incorporated city in the County is the City of Angels, commonly known as Angels Camp. The County's Census Designated Places (CDPs) include: Arnold, Avery, Copperopolis, Dorrrington, Mokelumne Hill, Murphys, Rancho Calaveras, San Andreas, Vallecito, Valley Springs, and West Point.

Calaveras is served by four (4) state highways. State Route 4 (SR 4) provides an east-west route from San Joaquin County to the high Sierra and Bear Valley Ski Resort. State Route 49 (SR 49) is the major north-south route linking the communities of Mokelumne Hill, San Andreas, and Angels Camp to Amador and Tuolumne Counties. State Route 26 (SR 26) traverses the northwest corner of Calaveras County between the San Joaquin County line near Rancho Calaveras and the Amador County line near West Point. Finally, State Route 12 (SR 12) travels through the western portion of the County and serves as a connector to San Joaquin County, Wallace, Burson and Valley Springs.

A key factor regarding future growth trends for housing, employment, transit and transportation infrastructure is population. The population in Calaveras County since the 2020 Census has fluctuated insignificantly with slight losses and gains in population each year. In January 2024, the California Department of Finance (DOF) reported the population of Calaveras County at approximately 46,574, reflecting a modest increase from the 45,348 reported in the 2020 Census. While the

county experienced a slight decline between 2010 and 2020, recent data indicates a small recovery in population. The DOF projects that Calaveras County's population will grow by about 0.02% annually over the next decade, reaching around 46,619 by 2030. However, extending the projections through 2040, the county's population is estimated to reach 48,500, suggesting slow but steady growth.

The California State Employment Development Department (EDD) reported that the number of employed persons in Calaveras County in December 2023 was approximately 21,800. The county's unemployment rate has decreased significantly from the peak of the economic downturn and currently stands at 4.5%. The largest employers in the county include sectors such as Hospitals and Health Care, Schools, County Government and Social/Human Resources, Utility Companies, Retail, and Wine Manufacturing. According to the U.S. Census Bureau's 2022 data, only 21.4% of employed residents of Calaveras work within the county; conversely, 53.1% of those employed in Calaveras live in the county. The proximity of Calaveras to San Joaquin County continues to be a key factor in driving growth in the western part of the county. It also serves as an attractive employment destination for Calaveras residents, with roughly 19% of the workforce commuting to San Joaquin and Stanislaus counties, making this the second-largest commuting region for Calaveras residents.

The regional movement of people within the County can be classified into three broad travel categories: commuters, recreational, and tourist. The County commute consists mostly of automobile traffic from smaller communities and rural areas onto the SR 49, SR 26, SR 4, and SR 12 corridors. Most of the interregional and intraregional traffic continues to be concentrated in the SR 49 and SR 4 corridors.

Calaveras County has experienced relatively low population growth due to the County's rural nature and lack of expanding employment opportunities. The small residential population in the County does not reflect the thousands of visitors and tourists that travel to and through the County each year, and ultimately the impact on the transportation system. In Calaveras County

tourism contributes significantly to the regional economy. In 2009 total taxable sales hit a low of \$260 million, since then taxable sales have steadily increased on average five percent per year to \$330 million in 2014. Emphasis on system preservation and rehabilitation of roadways, bridge replacement, and road upgrades is important to economic development and economic well-being of the area.

GOODS MOVEMENT

The movement of goods and people is highly dependent upon state highways because of their superior design and capacity. A combination of state highways and County roads serve as the primary network for goods movement in Calaveras County. Each of the state facilities exhibits significant truck volume at various locations. The highest volume of trucks occurs on SR 26 and SR 49 the only State Transportation Assistance Act (STAA) routes. The highest percent of total average annual daily traffic (AADT) for the routes in Calaveras County are recorded on SR 4 and SR 49. Like most rural areas, truck travel is the primary source of roadway degradation for local facilities. Adequate maintenance and efficient operation of this roadway network is critical to the continued economic vitality of the County as well as safety of the public.

CCOG continues to support investments and improvements on state highways and county roads, including continued support for the SR-4 Wagon Trail Realignment project. CCOG contracted with Fehr & Peers completing a Freight Study, developing truck and freight movement data to support grant funding applications including the Trade Corridor Enhancement Program (TCEP).

As reflected in the interviews with truck traffic generators, conditions for goods movement are generally perceived as good, but some see new developments negatively impacting the regional transportation system. Potential conflicts between truck, recreational vehicle traffic and 40-foot tour buses on the County's narrow two-lane highways are seen as an issue. Some roads are considered to be simply too narrow to accommodate both goods movement and recreational traffic safely. Due to permitting constraints, larger trucks typically must take less direct routes to delivery locations, thereby decreasing efficiency. Additionally, a lack of shoulders and passing opportunities on the highway system is a safety concern in Calaveras County. All these factors can negatively impact goods movement through the County.

As the region grows, larger trucks require travel through Calaveras County, particularly on SR 4 and SR 49. Improving state highways and intersections to State Transportation Assistance Act (STAA) levels, constructing turnouts and passing lanes and upgrading County roads such as Parrots Ferry Road, O'Byrnes Ferry Road, Mountain Ranch Road and Sheep Ranch Road will benefit traffic flow, roadway safety and the local economy by offering parallel capacity to the State Routes.

Calaveras Council of Governments 2026-2027 Overall Work Program (OWP) Information Element					
State Route	Product	Activity Description	Performed By	Status of Product	Expected Date of Completion
All	D10 Bicyclist Pedestrian Advisory Committee (BPAC)	Community and public engagement on active transportation needs on and close to the State Highway System	Caltrans District 10 System Planning and Goods Movement	Ongoing	Ongoing
All	D10 Mobile Home Park Access Feasibility Study	Documentation of existing conditions, prioritized active transportation needs, and possible solutions to address walking and bicycling gaps and barriers at or near parks' egress/ingress on the SHS	Caltrans District 10 Active Transportation and Office of Complete Streets	Ongoing	Summer, 2026

PUBLIC TRANSPORTATION

Public transportation has always played an important role in Calaveras County. The Calaveras Transit Agency (CTA) Joint Powers Agreement (JPA) was executed by the County of Calaveras and City of Angels on March 6, 2018, to manage and operate the Calaveras Transit program. The CTA assumed full responsibility for management of the public transit system from County management on July 1, 2018. The new agency executed an extensive transition plan leading to full operating responsibility on July 1, 2018. A rebranding effort was executed in 2019 to rebrand the system from Calaveras Transit to Calaveras Connect.

The mission statement of the Calaveras Transit Agency is to *provide safe and cost-effective public transportation services throughout Calaveras County to serve the mobility needs of residents and visitors who need public transportation.*

Prior to April of 2020, when COVID-19 impacted services, Calaveras Connect offered five (5) deviated fixed routes, Monday through Friday, generally between 5:00 a.m. and 9:00 p.m. Seasonal Saturday service was provided through the Saturday Hopper, a deviated fixed route that operated every hour from 10:00 a.m. to 7:30 p.m. between Angels Camp and Arnold, with a few trips to San Andreas. Coordinated transfers were made available with Amador Regional Transit in Jackson, which provides a link for residents to Sacramento, and with Tuolumne County Transit at Columbia College.

Discounted fares were offered to persons with disabilities, older adults, veterans, students, and youth. The CTA initiated a student fare program in FY 2019/20 for Columbia College students, offering free rides on all Calaveras Connect routes Monday through Friday. The CTA also implemented Token Transit, which is a smartphone app that allows riders to purchase and maintain passes on the app.

In April of 2020 when California issued the first statewide “stay at home” order, Calaveras Connect suspended services and fares collection. On demand only services for the entire Calaveras Connect service area was initiated in May of 2020. Throughout 2020/21 Calaveras Connect services continued to evolve with additional expansions to the Dial-a-Ride services.

Starting January 2022, new services as approved by CTA went into effect, maintaining the Red Line as the only deviated fixed route and the expanded Dial-a-Ride services available Monday through Friday throughout the entire County. Seasonal Saturday service is provided through the Saturday Hopper, a deviated fixed route that operates every hour from March through November, between Angels Camp and Murphys, with Arnold as an on-demand service and a few trips to San Andreas.

Description of Current Services:

For fixed routes, buses deviate up to three-quarters of a mile from the published alignment with advance notice.

Red Line – The Red Line travels between Vista del Lago and Arnold, stopping in Valley Springs, San Andreas, Angels Camp, Douglas Flat, Murphys, and Avery. Ten daily roundtrips are made from 6:10 AM and 8:13 PM Monday through Friday. Trips are provided on demand from Angels Camp to Columbia College Monday through Friday.

Saturday Hopper – The Saturday Hopper runs a fixed route seasonally from March through November. The Hopper service runs hourly from Angels Camp to Murphy’s and the Murphys to Arnold section is an on-demand service.

Direct-Connect Dial-a-Ride – Curb-to-curb Dial-a-Ride service covers the entire County Monday through Friday. Service is by reservation only. Out of County connections can be made using Direct-Connect only on specific days to each area:

- West Point/Wilseyville/Jackson – Wednesday only
- Angels Camp to Sonora – Friday only
- San Andreas to Jackson and Sutter Creek – Monday – Friday

CALAVERAS CONNECT SYSTEM MAP

In addition to public transit services offered by the County, there are ten (10) known social and human service agencies which provide specialized transportation in Calaveras County. Private transportation providers within the County include several taxicab services. The nearest Amtrak and Greyhound stations are located in Lodi and Stockton.

ACTIVE TRANSPORTATION

Active transportation is a growing area of interest and focus at both the local, state, and federal levels. California passed legislation creating the Active Transportation Program (ATP) through Senate Bill 99 (Chapter 359, Statutes of 2013) and Assembly Bill 101 (Chapter 354, Statutes of 2013). Through the passage of the ATP, the state seeks to increase bicycling and walking trips, improve safety and mobility for non-motorized users; in turn, reducing greenhouse gases and enhancing public health.

In addition to the abovementioned goals, communities that have invested in bicycle and pedestrian infrastructure have seen tangible economic impacts. Transportation systems that encourage walking or bicycling are known to improve and increase business activity, home values, tourism, retail sales, and lower infrastructure as well as healthcare costs.

There are 21.8 miles of bikeways in Calaveras County and Angels Camp, consisting of 2.6 miles of Class I Multi-Use Paths, 0.7 miles of Class II Bike Lanes, and 14.9 miles of Class III Bike Routes. Due to a lack of infrastructure, most of the bicycle travel in Calaveras County is for recreation or fitness, either on off-road trails or less traveled rural roads. Many recreational trail networks exist off the local road or state highway system such as the Arnold Rim Trail, New Melones trails, Big Trees State Park trails, and Lake Camanche Reservoir. Through planning, coordination and outreach, and funding activities (e.g., programming, grant assistance, etc.) the CCOG promotes and seeks to increase non-motorized travel in Calaveras County.

In 2015 the CCOG adopted the Countywide Bicycle and Pedestrian Master Plan and added a Safe Routes to Schools component. The Plan serves as a coordinated and resource document for the region, with a focus on developing a primary network of bikeways, programs, and specific policies and enhancements. The update included significant public input and data collection, both on existing conditions and future needs and desires of the community. The CCOG applied for a Calaveras County Active Transportation and Recreational Trail Plan through the Caltrans FY 2023/24 Sustainable Transportation Planning grant call. CCOG was successful in this round and was awarded \$264,000, and in March 2024, the CCOG Board approved a contract with Fehr & Peers. The grant-funded project was successfully completed in 2026.

In conjunction with the Calaveras County Active Transportation and Recreational Trail Plan, the CCOG updated the active transportation website, called Walk and Bike Calaveras (www.walkandbikecalaveras.org), previously created for the 2015 Bicycle, Pedestrian and Safe Routes to School Master Plan. Walk and Bike Calaveras is a resource to help residents and visitors take advantage of the many transportation options and resources that exist in Calaveras County, while also providing information and education on bicycling, walking, and riding transit.

Beginning in 2014 and each cycle thereafter, the CCOG has facilitated and coordinated a project prioritization process for California's Active Transportation Program (ATP). The CCOG brought together agencies and stakeholders to develop criteria and a prioritized project list for the region. The goal was to develop competitive grant applications for projects to be funded under this program in Calaveras County. Stakeholders included representatives from Public Health, CHP, schools, Recreation and Parks, Caltrans, the County, and the City of Angels. Development of ATP project applications is a priority of CCOG.

In 2014, CCOG established a volunteer position to support the development of the Active Transportation Program. The volunteer started in 2015 by drafting a work plan focused on the areas of increasing physical activity and injury prevention through the promotion of transportation safety, community walks and runs and a community education campaign for pedestrians, riders and drivers. The second focus area is the promotion of healthy community design and development through awareness of local community priorities. Also, this will include the promotion of access to safe and convenient facilities increasing areas to walk and bike. The promotion of safe walking routes and walking groups identified by and featuring local residents will be posted on the www.walkandbikecalaveras.org. Local media coverage of the Plan activities will further promote community awareness and support.

In 2016 and 2017 CCOG coordinated with the Calaveras Unified School District and Mark Twain School District to develop a bicycle and pedestrian safety education campaign and planning for activities such as a walk to school day. Various other agencies were involved including San Andreas Recreation and Park District, Calaveras Public Health Services, California Highway Patrol, Mark Twain Medical Center, San Andreas Elementary School, Mark Twain Elementary School and the City of Angels.

CCOG has worked with our local jurisdictions and Caltrans on various multimodal plans including complete streets, corridor studies, and bike/ped facility feasibility studies. Caltrans looks to endorse separated, connected, and protected active

transportation facilities where possible on the SHS, while also developing local connected active transportation networks. Caltrans supports coordination efforts to enhance bicycle and pedestrian facilities on the SHS. Specifically, to ensure separation and protection for bicyclists and pedestrians from motor vehicle traffic on state highways in built environments, Caltrans endorses the installation of connected sidewalks, as well as buffered Class II, Class IV, and Class I bicycle lanes on the SHS where feasible. Caltrans has supported this work through funding from the statewide Sustainable Communities and Partnership Planning Grant program. These studies have been utilized to apply for competitive funding, coordinate with Caltrans SHOPP project development, and prioritization of regional projects. Several have resulted in funding and delivery of multimodal transportation improvements.

CCOG will continue to enhance existing relationships with local community partners to meet the goals of the Active Transportation Plan.

AVIATION FACILITIES

The Calaveras County Airport, Maury Rasmussen Field, is a public general aviation airport located four (4) miles southeast of the central business district of San Andreas. The airport, owned by the County of Calaveras, is a 93-acre facility with a single 3,602-foot runway. The airport has 43 hangar spaces, 64 tie downs, and is home to 77 based aircraft. The current aircraft activity level is estimated to be 30,000 annual operations. The majority of activity, 85%, is small, single engine aircraft. Maury Rasmussen Field is in the Federal Aviation Administrations (FAA) Nation Plan of Integrated Airports Systems (NPAIS). This designation makes the airport eligible to apply for federal grants to maintain and upgrade facilities.

The Calaveras County Airport Land Use Commission (ALUC) adopted the County of Calaveras Airport Land Use Compatibility Plan on June 2, 2010. The basic function of the plan is to promote compatibility between Calaveras County Airport and the land uses surrounding it to the extent that these areas have not already been devoted to incompatible uses. The plan accomplishes this function through establishment of a set of compatibility criteria applicable to new development around the airport. Neither the plan nor the ALUC have authority over existing land uses or over operation of the airport. The General Plan and any applicable specific plans must be consistent with the ALUC plan. Current County efforts are focused on implementation of the ALUC.

AIR QUALITY CONFORMITY

In general, Calaveras County has good air quality. However, Calaveras County exceeded the state hourly ozone standard (0.09 ppm or 180 µg/m³). Calaveras County is also in non-attainment (in San Andreas) for the new federal 8-hour ozone standard (0.08ppm or 157µg/m³) and the state 8-hour ozone standard (0.07ppm or 137µg/m³).

AGENCY COORDINATION

Inclusive of our Partner Agencies, the CCOG coordinates regional transportation planning activities with other public agencies, including Caltrans, the California Transportation Commission, neighboring Regional Transportation Planning Agencies, Tribal Governments, Bureau of Land Management, California State Parks, US Forest Service, and other interested groups. The Technical Advisory Committee (TAC) and Executive Management Group (EMG) contribute greatly to CCOG success in interagency collaboration. The support of key personnel on each committee is pivotal to CCOG's ability to coordinate transportation planning activities countywide.

The CCOG works closely with several non-profit agencies and community groups. The Ebbetts Pass National Scenic Byway Association (EPNSBA) is a non-profit community organization dedicated to enhancing the unique resources along the byway. The CCOG supports the efforts of the EPNSBA, one of the seven federal recognized scenic byways in the State.

The CCOG plays a role in supporting its partners through the application of various grant funded programs. The Core Function of the CCOG in the management of grant programs includes:

- Pursuit of state and federal transportation grants
- Local jurisdiction funding support and coordination
- Oversight of public transit funding

Successful grant application will be dependent upon planning and programming strategies, pairing projects with the right grant criteria, leveraging funds, and positive working relationships with other agencies.

Coordination and Consultation with Native American-Tribal Government(s)

Calaveras County has two federally recognized Tribal Government within its boundaries, the California Valley Miwok Tribe and the California Valley Miwok Tribe AKA Sheep Rancheria of Me-Wuk Indians of California. As mandated by federal and state guidelines, regulations and/or statutes, the CCOG needs to ensure the needs of Native American Tribes are identified, considered and addressed during the earliest stages of transportation planning and project delivery. These formal Tribal government-to-government relations should be documented (i.e., Tribal Council meeting agendas, attendance lists, presentation materials, etc.). Consultation with federally recognized Tribes are distinct relationships and separate from Native American tribes or individuals who are included in the Public Participation Process.

California Valley Miwok Tribe's Contact Information

COMMUNITY PARTICIPATION

The Calaveras Council of Governments is subject to and complies with the Brown Act (also known as the Open Meeting Act). Therefore, all regular meetings are open to the public and the agendas are posted in accordance with the Brown Act. The agendas are also posted on the CCOG's website at www.calacog.org. Our office, located at 444 E. St. Charles Street in San Andreas, is open from 8 am - 5 pm Mon. through Fri. and the public is always welcome.

The CCOG adopted a Title VI Program in June of 2024. The Program includes Title VI Policies and Procedures, Public Participation Plan, and Limited English Proficiency Plan. As a staple of agency business, the CCOG encourages public participation through various outreach efforts. Standing sources and avenues for feedback and participation include: Social Services Transportation Advisory Council (SSTAC), community meetings, surveys, steering committees, local websites, major document reviews, and Council meetings. The CCOG solicits public review and input when updating its long range planning document, the Regional Transportation Plan. Public input is also welcomed at monthly CCOG meetings regarding any planning item under the jurisdiction of the Council. On an annual basis, the CCOG holds a public hearing for Unmet Transit Needs prior to making

significant changes in public transit service in the County. The CCOG also holds a public hearing prior to the acceptance or adoption of any other planning documents or major policy decisions.

Public Participation Process with the Native American Population

The Calaveras County region is also the ancestral home to a number of 1) non-federally recognized California Native American tribes, communities, organizations, groups, or individuals living within its jurisdiction and 2) federally recognized Tribes from neighboring counties. Tribal involvement and coordination early in the process will ensure important insight, knowledge, and/or information on a variety of transportation, economic, social and environmental issues and needs that can be learned firsthand from involving the Native American population.

Yolanda Tello-Jackson, the District 10 Native American Liaison can be emailed at yolanda.tello-jackson@dot.ca.gov, for updated contact information. An expanded list of Native American Tribes, organizations, and individuals within CCOG boundaries can also be requested from the Native American Heritage Commission, 1550 Harbor Blvd. Suite 100, West Sacramento, CA 95691, nahc@nahc.ca.gov or call (916) 373-3710.

SSTAC

The Social Services Transportation Advisory Council (SSTAC) was established under the requirements of the Transportation Development Act (TDA), to ensure that unmet transit needs are identified within the County. Members and alternates of SSTAC are appointed by the CCOG from a list of applicants. These members shall be appointed according to Section 99238 of the TDA Statutes and California Code of Regulations. The statute indicates a minimum of nine (9) members. Calaveras County's SSTAC will include the following categories of membership:

- One representative of potential transit users who are 60 years of age or older.
- One representative of potential transit users who are persons with a disability.
- Two representatives of local social service providers for seniors, including one representative of a social service transportation provider, if one exists.
- Two representatives of a local social service provider for persons with disabilities, including one representative of a social service transportation provider, if one exists.
- One representative of a local social service provider for persons of limited means.
- Two representatives from the local consolidated transportation service agency, if one exists, including one representative from an operator, if one exists.

In addition, a representative from Caltrans District 10 shall be an ex-officio member of this Advisory Committee. The CCOG Board may appoint additional members from the transportation and the social service community in accordance with TDA legislation. Any qualified person who lives or works in Calaveras County may apply for membership on the SSTAC.

Community Meetings

Additional outlets for public participation present themselves on a regular basis. The CCOG is regularly asked to speak with various community groups regarding a variety of topics related to our mission. These invitations offer a special opportunity to receive input from specific communities, including traditionally under-represented and under-served populations such as the elderly, persons with disabilities, low-income, and minority communities/groups, and community leaders, while at the same time clarifying our role in the region, explaining transportation planning and funding, and delving into our Overall Work Program.

Surveys/Questionnaires

The CCOG has found surveys and questionnaires to be an effective avenue for quantifying feedback from community members, including traditionally under-represented and under-served populations such as the elderly, persons with disabilities, low-income, and minority communities/groups and community leaders. A number of projects make use of this fast, efficient and cost-effective manner of public outreach for input.

Websites

The CCOG actively leverages local media outlets to share important updates, including key dates, public surveys, and other relevant information. Websites such as ThePineTree.net, MyValleySprings.com, CalaverasEnterprise.com,

WalkandBikeCalaveras.org, and Calacog.org serve as vital communication channels for the Council of Governments. In addition, CCOG has expanded its outreach by joining social media platforms like Facebook and Nextdoor.

STATE PLANNING AND PROGRAMMING

The CCOG is the State mandated Regional Transportation Planning Agency. As such, the CCOG prepares the Regional Transportation Plan (RTP) and the Regional Transportation Improvement Plan (RTIP). The CCOG is also responsible for administering the Transportation Development Act (TDA) funds for Calaveras County jurisdictions. All projects must be in the RTP and may be in the RTIP in order to receive consideration for funding allocated by the CCOG. The RTIP is the program by which projects are nominated to the State Transportation Improvement Program (STIP).

OTHER FEDERAL AUDIT REQUIREMENTS

The Calaveras Council of Governments will obtain grant agreements from the grantor or pass through entity that lists the Catalog of Federal Domestic Assistance (CFDA) number at the time the Council receives a federal award and retain the agreements in the grant file, so they are available in years that a single audit is required.

FEDERAL PLANNING FACTORS

Federal Planning Factors are issued by Congress to emphasize specific issues and must be identified in local planning documents. The ten Federal Planning Factors are incorporated in the OWP and are as follows:

Planning Factors	1. Administration and Transportation Development Act (TDA) Administration	2. Triennial Performance Audit	3. Regional Planning and Coordination	4. Overall Work Program- Dev	5. Planning, Programming and Monitoring of State and Federal Programs	6. Project Delivery and Support	7. Grant Development	10. Calaveras Transit Management and Operations	11. Transit Planning	14. Regional GHG Reduction Plan – Phase II	15. Safe Streets and Roads for All Grant	17. Travel Demand Model Update
1. Support the economic vitality of the metropolitan area, by enabling global competitiveness, productivity & efficiency.	X		X	X	X		X	X	X	X	X	X
2. Increase the safety of the transportation system for motorized & non-motorized users.	X		X	X	X	X	X	X	X	X	X	X
3. Increase the security of the transportation system for non-motor & motorized users.	X		X	X	X	X	X	X	X	X	X	X
4. Increase the accessibility & mobility of people and freight.	X		X	X	X	X	X	X	X	X	X	X
5. Protect & enhance the environment, promote energy conservation, improve quality of life, & promote consistency between transportation improvements, & State & local planned growth, housing and economic development patterns.	X		X	X	X	X		X	X	X	X	X
6. Enhance the integration & connectivity of the transportation system across & between modes, people & freight.	X		X	X	X	X	X	X	X	X	X	X
7. Promote efficient system management and operation.	X		X	X	X	X	X	X	X	X	X	X
8. Emphasize the preservation of the existing transportation system.	X		X	X	X	X	X	X	X	X	X	X
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation	X		X	X	X	X	X	X	X	X	X	X
10. Enhance travel and tourism	X		X	X	X	X	X	X	X	X	X	X

Work Element 26/27 – 01 ADMINISTRATION AND TRANSPORTATION DEVELOPMENT ACT (TDA) ADMINISTRATION

PURPOSE

This work element includes activities for providing administration and financial support for the operation of the Calaveras Council of Governments and its advisory committees. A core responsibility of the Calaveras Council of Governments (CCOG) is to administer Transportation Development Act (TDA) funds, which include Local Transportation Funds (LTF) and State Transit Assistance (STA) funds. Both LTF and STA are used to operate public transit, construct bicycle and pedestrian facilities, and maintain street and roads infrastructure. Under TDA statute, the CCOG is responsible for preparing preliminary and final estimates of LTF and STA apportionments, conducting fiscal audits and performance audits and transit coordination. The CCOG has appointed members to a Social Services Advisory Council in accordance with the TDA Statute 99238. In addition, CCOG provides assistance to the Calaveras Transit Agency in the development of grant/funding applications and is responsible for the associated programming and reporting documents.

PREVIOUS WORK

This is an ongoing Work Element in the Overall Work Program (OWP) created to distinguish between indirect and direct costs.

TASKS/METHODOLOGY

1. Coordinate and prepare Council meetings, Technical Advisory Committee Meetings, and Executive Management Group meetings (agendas, minutes, notices, staff reports, backup documentation, etc.) – Monthly/Quarterly
2. Administer and develop CCOG operations budget, including reporting of financials and funds – As needed
3. Personnel administration – As needed
4. Maintain and update CCOG website – As needed
5. Office lease – Monthly
6. Purchase and maintain office equipment – As needed
7. Reports to Caltrans regarding funds – As needed
8. General public information and outreach activities including press releases and newsletters – As needed
9. Provide management and oversight of Public Transit Funds, including reviewing and processing claims – As needed
10. Contract for and oversee fiscal compliance audits and implementation of audit findings – Annually
11. Assist claimants with preparation of claims or agenda documentation – As needed
12. Develop and update the CCOG operating policies and procedures and personnel policies – As needed
13. Attend governmental and professional conferences and/or training – As needed
14. Track claims and expenditures as allocated by the CCOG – Monthly/As needed
15. Update transportation/transit claim guidelines and forms – As needed
16. Purchase and maintain Granicus Government Meeting Software – Yearly
17. Maintain adequate filing system and records retention – Yearly
18. Legal services – As needed

PROPOSED PRODUCTS

1. Meeting agendas and minutes – As needed
2. Fiscal and Compliance Audits, December 2026 – March 2027
3. State Controller's annual report, January 2027
4. Develop and Implementation of CCOG Logo and Website – September 2026

Work Element 26/27 – 01 CONTINUED

Work Element 26/27 – 02 TRIENNIAL PERFORMANCE AUDIT

PURPOSE

California Public Utilities code requires that all Transit Operators and Regional Transportation Planning Agencies complete a Triennial Performance Audit. The Audit will provide a comprehensive review of the economy, efficiency, and effectiveness of the Calaveras Council of Governments and Transit System under management's control. The audit measures performance against acceptable criteria and focuses on management's planning and control systems.

The Audit will provide management with necessary information to assess past activities, insight for future efforts, as well as review and evaluate the agency's organization and operations.

PREVIOUS WORK

- Triennial Performance Audit for FY 2020/21 – 2022/23

TASKS/METHODOLOGY

1. Issue Request for Proposals (CCOG) – Fall 2026
2. Conduct Interviews and Award Contract (CCOG) – Fall 2026
3. Kick-Off Meeting (CCOG and Consultant) – Fall 2026
4. Begin Audit Field Work (Consultant) – Winter 2026
5. Draft Plan – Spring 2027
6. Report Preparation and completion (Consultant) – Fall 2027
7. Council Presentations (Consultant) – Fall 2027

PROPOSED PRODUCTS

- Final Performance Audit submitted to Caltrans Division of Mass Transportation for the following fiscal years: 2023/24 – 2025/26

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Consultant Contract	\$40,000	2026/27	LTF
Calaveras Council of Gov.	\$9,769	2026/27	LTF
TOTAL	\$49,769		

Work Element 26/27 – 03 REGIONAL PLANNING AND COORDINATION

PURPOSE

The purpose of this Work Element is to fulfill the regional transportation planning duties of the Calaveras Council of Governments (CCOG) whose sole function is to act as the lead planning and funding agency for transportation projects and programs in Calaveras County. The CCOG is an organization by which Member Agencies address regional needs and concerns through coordination, collaboration, and partnership. This Work Element includes coordination with outside agencies, local jurisdictions, general public and the private sector to address current and long-range issues that impact transportation planning, and to make technical and policy recommendations to the Calaveras Council of Governments (CCOG).

PREVIOUS WORK

This is an ongoing Work Element in the OWP, providing for direct costs associated with CCOG Staff time. Specific previous work associated with regional planning and coordination includes:

- Title VI Plan – June 2025
- Technical Advisory Committee (TAC meeting agendas and minutes) – July 2025 – June 2026
- Public Outreach Plan
- Annual DBE Reporting
- Support and participation in City and County regional transportation planning projects and sustainable communities transportation planning grants

TASKS/METHODOLOGY

July 2026 - June 2027

This is an annual ongoing work element, wherein many of the following tasks will be conducted throughout the fiscal year. The timeframe details of the specific projects can be found in each associated work element.

RPA Eligible Tasks

1. Provide support for ongoing planning duties which includes participation at California Transportation Commission Meetings, CalCOG, Rural Counties Task Force, and other meeting necessary to fulfill the mandated Planning Functions of the Organization (CCOG & Consultant) – As needed
2. Coordinate the Technical Advisory Committee (TAC) and agenda materials (CCOG) - Monthly
3. Preparing for and attending board meetings – For items related specifically to regional transportation planning functions (CCOG & Consultant) - Monthly
4. Prioritize and coordinate CCOG Planning Functions through work with local agencies, including Tribal Government, Caltrans, and community partners (CCOG & Consultant) – As needed
5. Participate in the development, review and/or comment on transportation planning documents or studies of the local agencies to ensure consistency with the Regional Transportation Plan (RTP) and/or other regionally accepted documents (CCOG & Consultant) – As needed
6. Review relevant planning documents for consistency with the Regional Transportation Plan and monitor implementation (CCOG & Consultant) – As needed
7. Plan, prepare and update regional planning documents and coordinated plans as needed (CCOG & Consultant) – As needed
8. Review and respond as necessary to legislative requirements and changes in transportation planning processes (CCOG & Consultant) – As needed
9. Hold technical workshops/meetings for local agencies on topics related to transportation planning and/or council functions (CCOG & Consultant) – As needed
10. Present planning projects and/or updates on regional transportation projects/issues before the City Council and County Board of Supervisor meetings (CCOG & Consultant) – As needed
11. Coordinate with Caltrans on planning and project development efforts, including participating in quarterly executive steering committee meetings (CCOG) – Quarterly/As needed
12. Attend Airport Land Use Commission meetings and relevant to current planning projects or the RTP (CCOG) – As needed
13. Update Title VI Policies and Procedures, required for Federal grants (CCOG) – As needed
14. Assist local agencies and/or regional partners with regional planning projects and/or planning processes, including Caltrans transportation planning grants. (CCOG & Consultant) – As needed
15. Ensure compliance with State and Federal requirements such as Disadvantage Business Enterprises (DBE) and Title IV (CCOG) – As needed
16. Support for daily planning functions of CCOG (CCOG & Consultant) – As needed

Work Element 26/27 – 03 CONTINUED

PROPOSED PRODUCTS

1. CCOG meeting agendas and minutes – As needed
2. Technical Advisory Committee (TAC) meeting agendas and minutes – Monthly, third Wednesday of each month
3. DBE – As required, Uniform Report of DBE Commitments/Awards or Payments are due to Caltrans April 1st and October 1st
4. Updated Title VI Plan – As needed

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
On Call - Consultant Contract	\$53,272	2026/27	RPA
Calaveras Council of Gov.	\$92,929	2026/27	RPA
On Call – Consultant Contract	\$22,200	2026/27	*RPA Carry Over
On Call - Consultant Contract	\$35,000	2026/27	LTF
Calaveras Council of Gov.	\$6,795	2026/27	RSTP
On Call - Consultant Contract	\$11,284	2026/27	RSTP
TOTAL	\$221,480		

*Estimated RPA Carryover from FY 2025/26

Work Element 26/27 – 04 OVERALL WORK PROGRAM – DEVELOPMENT

PURPOSE

The Overall Work Program (OWP) is a necessary programming document to carry out CCOG core planning functions and documents. The OWP provides a public process for the identification and prioritization of CCOG planning funds. The OWP does not include capital projects and is utilized as a planning focused programming tool including at a minimum, descriptions of the planning activities and resulting products, the cost of the work with identified funding sources, and the responsible agency. This Work Element provides for Staff activities related to the development, public and technical participation, and monitoring of the CCOG OWP and planning projects.

PREVIOUS WORK

Completion and implementation of the 2025/26 Overall Work Program (OWP).

TASKS/METHODOLOGY

Development and monitoring of the OWP occurs throughout the fiscal year. CCOG develops OWP amendments as needed to identify carryover, changes in work tasks or needs, and funding.

RPA Eligible Tasks

1. Prepare Quarterly Caltrans reports on the status of regional planning projects – Quarter 1-3: Due to Caltrans the month following the end of each quarter: October 31st, January 31st and April 30th; Quarter 4 due August 31st
2. Research and prepare current and future year OWP consistent with regional goals and priorities – As required, Caltrans requires that any current year OWP amendments are due by May 1st and the future year draft is due March 1st and the final is due June 1st
3. Manage and monitor the OWP, prepare process of amendments and coordinate support with local agencies, OWP is monitored throughout the year and amendments are made as required – As needed
4. Prioritize and coordinate CCOG planning functions through public processes – As needed
5. Participate with Regional, Local, and State Agencies in planning efforts that may affect OWP priorities – As required
6. Work collaboratively through the Technical Advisory Committee to strengthen relationships necessary to conduct regional planning and the identification of community planning priorities – As needed, in general TAC meetings are held monthly on the third Wednesday of each month
7. Preparation and submittal of the Year End Package and Certification of Expenditures – August through October 2026

PROPOSED PRODUCTS

1. OWP Draft, Final, and needed Amendments – OWP draft is due March 1st, final is due June 1st, amendments made as needed by May 1st
2. Quarterly reports and invoices – Quarter 1 – 3: Due to Caltrans the month following the end of each quarter: October 31st, January 31st and April 30th. Quarter 4: Due to Caltrans 60 days after the end of the quarter: August 31st
3. Year End Package - Due August 31st

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Calaveras Council of Gov.	\$65,714	2026/27	RPA
TOTAL	\$65,714		

Work Element 26/27 – 05 PLANNING, PROGRAMMING AND MONITORING OF STATE AND FEDERAL PROGRAMS

PURPOSE

State and Federal Programming is a long-standing and ongoing function of CCOG and necessary to ensure the implementation of the Regional Transportation Plan (RTP). As the statutorily designated Regional Transportation Planning Agency (RTPA) for Calaveras County, CCOG is responsible for promoting an open and transparent process in the selecting and prioritizing projects to use available state and federal transportation grant funds including those from the State Transportation Improvement Program (STIP) and the Infrastructure Investment and Jobs Act (IIJA). The most critical responsibility for CCOG is to program the Regional Transportation Improvement Program (RTIP) funds allocated to Calaveras County. CCOG also advocates for the allocation of Statewide ITIP/SHOPP funds for shared projects on state highways within Calaveras County. Once these selections are made, CCOG will ensure that project requests in the RTIP and ITIP are included in the STIP.

PREVIOUS WORK

1. 2026 RTIP – approved by the Council in December 2025 and approved by California Transportation Commission (CTC) in March 2026

TASKS/METHODOLOGY (CCOG & Consultant)

This is an annual ongoing work element, wherein many of the following tasks will be conducted throughout the fiscal year.

1. Planning, programming, and monitoring of activities associated with the RTIP, STIP, ITIP, and FSTIP to ensure consistency with the Regional Transportation Plan (RTP), transparency and community participation (CCOG & Consultant) – As needed
2. Participate and provide support at Caltrans, California Transportation Commission, RTPA Group, and other meetings and workshops regarding development of STIP, programming and funding issues, and legislative matters (CCOG & Consultant) – As needed
3. Provide the City of Angels Camp, County of Calaveras, and Council of Governments with data regarding STIP programming and implementation policies (CCOG & Consultant) – As needed
4. Coordinate, consult, and collaborate with Tribal Governments (CCOG & Consultant) – As needed
5. Prepare RTIP for submittal to Caltrans and California Transportation Commission (CTC) in December (CCOG & Consultant) – As needed
6. Monitor CCOG's RTIP in accordance with State statutory requirements and to ensure consistency with the RTP and community goals and priorities (CCOG & Consultant) – As needed
7. Prepare STIP and FTIP amendments (CCOG & Consultant) – As needed
8. Monitor and track status of apportionments, obligational authority, and lapsing funds for programs such as CMAQ, RSTP, STIP, etc. (CCOG & Consultant) – As needed
9. Monitor progress of State and Federal Transportation Bill activities (CCOG & Consultant) – As needed
10. Develop funding strategies and coordinate with Caltrans, CTC and other agencies (CCOG & Consultant) – As needed
11. Maintain updates to programmed project cost estimates (CCOG & Consultant) – As needed
12. Conduct workshops or presentations regarding funding programs and impacts (CCOG & Consultant) – As needed
13. Work with State and Federal agencies to leverage RTIP funded projects (CCOG & Consultant) – As needed

PROPOSED PRODUCTS (CCOG & Consultant)

1. Calaveras RTIP and CTC adopted STIP – Biennially
2. STIP and FTIP Amendments -- As needed
3. Programming documents -- As needed

Work Element 26/27 – 05 CONTINUED

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Consultant Contact	\$18,885	2026/27	PPM
Calaveras Council of Gov.	\$26,115	2026/27	PPM
Consultant Contract	\$18,203	2026/27	RPA
Calaveras Council of Gov.	\$35,695	2026/27	RPA
TOTAL	\$98,898		

Work Element 26/27 – 06 PROJECT DELIVERY AND SUPPORT

PURPOSE

This is an ongoing Work Element and is necessary to ensure that projects using federal, state, and local grant funds use those funds in a timely and cost-effective manner. Additional responsibilities include coordination with local and Tribal jurisdictions to develop projects that meet specific federal program guidelines.

PREVIOUS WORK

This is an ongoing Work Element in the OWP, providing for direct costs associated with CCOG Staff time and consultant contracts.

TASKS/METHODOLOGY

1. Develop and coordinate the projects and funds in the Capital Improvement Program (CIP) (CCOG & Consultant) – Quarterly/As needed
2. Develop necessary amendments to the CIP (CCOG) – As needed
3. Plan for, monitor and report on status of projects in the CIP (CCOG) – Quarterly/As needed
4. Promote the timely use of Federal, State, and Local Funds (CCOG & Consultant) – As needed
5. Take necessary steps to prevent loss of funds to the region. Develop correspondence, allocation requests, time extension request, and reports (CCOG & Consultant) – As needed
6. Submit quarterly reports to the Council (CCOG) – Quarterly
7. Monitor STIP, FSTIP, RSTP, and CMAQ project implementation including project support (CCOG & Consultant) – As needed
8. Attend Caltrans Local Assistance webinars and update meetings (CCOG) – As needed
9. Attend Project Development Team and coordination meetings with implementing jurisdictions/Caltrans to discuss the status of projects and to resolve project delivery issues (CCOG & Consultant) – Quarterly/As needed
10. Coordinate with Caltrans on SHOPP and other Caltrans projects in Calaveras, attend SHOPP project management team meetings (CCOG & Consultant) – As needed
11. Develop and maintain STIP, FSTIP, RSTP, and CMAQ project status database, with components to increase and strengthen public participation including access to planning and project activities (CCOG & Consultant) – As needed
12. Attend other coordination meetings with Caltrans to discuss changes in the scope, budget, and/or schedule of STIP, FSTIP, RSTP, and CMAQ projects (CCOG and Consultant) – As needed
13. Process allocation requests from Local Project Sponsors for STIP and CIP Projects (CCOG) – As needed
14. Review local agency submissions for reimbursement (CCOG) – As needed
15. Monitor project implementation schedules (CCOG & Consultant) – As needed
16. Release call for projects to program State and Federal funds to local projects (CCOG) – Triennially/As needed

PROPOSED PRODUCTS

1. Project database – As needed
2. Quarterly CIP reports – Quarterly
3. Meetings and agendas – As needed

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
On-Call - Consultant Contract	\$40,000	2026/27	RSTP
Calaveras Council of Gov.	\$7,686	2026/27	RSTP
TOTAL	\$47,686		

Work Element 26/27 – 07 GRANT DEVELOPMENT

PURPOSE

This is an ongoing Work Element to provide for notification, research and technical assistance to local agencies in identifying and applying for transportation grant opportunities, for projects consistent with the Regional Transportation Plan and other Regional accepted plans.

PREVIOUS WORK

This is an ongoing Work Element in the OWP, providing for direct costs associated with CCOG Staff time or consultant costs.

TASKS/METHODOLOGY

1. Research and disseminate information on transportation grants available to the Region (CCOG & Consultant) – As needed
2. Solicit applications and provide technical assistance to applicants on projects of regional significance (CCOG & Consultant) – As needed
3. Attend Federal, State or Local training workshops on grant programs (CCOG & Consultant) – As needed
4. Prepare staff reports for the CCOG on applications to seek funds (CCOG & Consultant) – As needed
5. Utilize consultants to gather information and prepare grants (CCOG & Consultant) – As needed
6. Collect and analyze data necessary for grant applications (CCOG & Consultant) – As needed
7. Technical studies as necessary (CCOG & Consultant) – As needed
8. Analyze current and forecast trends in production, consumption, and through traffic, as well as population trends (CCOG & Consultant) – As needed
9. Analyze current and forecast trends that could impact goods movement in the region including demographic and economic analysis of goods production, consumption, and through traffic (CCOG & Consultant) – As needed
10. Coordinate and consult with all Tribal Governments on grant process and development (CCOG & Consultant) – As needed
11. Coordinate with community and stakeholders (CCOG & Consultant) – As needed
12. Participate in review of FTA 5310 and 5311 grant funding and other transit grant funding opportunities (CCOG & Consultant) – As needed
13. Facilitate and develop grant application and funding support to Local Agencies (CCOG & Consultant) – As needed

PROPOSED PRODUCT

1. Technical memos – As needed
2. Grant applications – As needed

FUNDING SOURCES AND AGENCY PARTICIPATION:

Multimodal Transportation Planning and Public Outreach

Work Element 26/27 – 10 CALAVERAS TRANSIT MANAGEMENT AND OPERATIONS

PURPOSE

This Work Element covers tasks directly associated with managing and overseeing operations of the Calaveras Transit Agency (CTA). The Calaveras Transit Agency was formed in 2018 through a Joint Powers Agreement (JPA) between the City of Angels and County of Calaveras. Calaveras Transit currently operates one deviated fixed route and County-wide Dial-a-ride services six days a week. Day-to-day operations is managed through a third-party contract with Paratransit Services. Paratransit Services is responsible for day-to-day operations including maintenance of the buses, staffing drivers and training, reporting, and dispatching.

Management of the transit system includes service planning, reporting, marketing and public outreach, financial oversight, grant/funding applications and administration, management of the operations contract, capital planning and delivery, and audits.

PREVIOUS WORK

1. Formation of Calaveras Transit Agency Joint Powers Agreement (JPA) and Transition Plan – Completed
2. Third party contract procurement and contract award
3. Management of transit system
4. Performance monitoring and reporting
5. Execution of rebranding and marketing campaign
6. Implementation of service improvements and changes
7. Implementation of capital projects
8. Purchase of 3.4 acres for a new transit facility (October 2023)
9. Contract Award for Architectural and Engineering Services for the new transit facility (September 2024)

TASKS/METHODOLOGY

1. Develop Calaveras Transit Agency Board meeting agendas and materials, schedule and manage meetings - Monthly
2. Manage operations contract – As needed
3. Develop performance reports for Boards and monitor performance on a regular basis – Monthly
4. Create and manage Transit Budget – Monthly/Annually
5. Apply for and manage State and Federal transit funding – As needed
6. Conduct public outreach and attend events to disseminate information regarding public transit services and solicit feedback– As needed
7. Develop and conduct surveys of riders or the public regarding transit service needs and as an avenue for data collection– As needed
8. Enhance coordination and develop partnerships with non-profit and private transportation providers– As needed
9. Develop marketing materials and public information documents such as brochures, timetables, maps, etc. – As needed
10. Manage Calaveras Transit website and social media platforms – As needed
11. Evaluate service plan and make service changes – As needed
12. Attend training sessions and conferences as needed for funding/grants or transit industry information – As needed
13. Plan for and manage capital project delivery – As needed
14. Provide information to auditors for annual fiscal audits – Annually
15. Planning and oversight of Design contract of new Transit Facility – As needed

PROPOSED PRODUCTS

1. Continued operation of Calaveras Transit Agency – Annually/Ongoing
2. Operations Contract – Annually/Ongoing
3. Meetings and Agendas – As needed

Work Element 26/27 – 10 CONTINUED

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Calaveras Council of Gov.	\$61,431	2026/27	Calaveras Transit Agency (CTA)*
TOTAL	\$61,431		

*Calaveras Transit Agency is funded by various State and Federal sources, including Federal Transit Administration, Transportation Development Act, State of Good Repair, Low Carbon Transit Operations Program, fare revenues, advertising revenues, and other local revenues.

Work Element 26/27 – 11 TRANSIT PLANNING

PURPOSE

This Work Element will focus on the activities involved with local transit planning. Much of the Work Element derives from the implementation of the Transportation Development Act (TDA), including conducting the annual unmet transit needs process, coordination of the Social Services Transportation Advisory Committee (SSTAC), conducting transit plans or studies.

PREVIOUS WORK

This is an ongoing Work Element in the OWP, providing for direct costs associated with CCOG Staff time.

1. FY 2025/2026 Annual Unmet Transit needs process and report
2. Facilitated the review of FTA 5310 applications
3. Updated Transit Website (2024)
4. Coordinated Public Transit-Human Services Transportation Plan Update (2024)
5. Short Range Transit Plan (2026)

TASKS/METHODOLOGY

This is an annual ongoing work element, wherein many of the following tasks will be conducted throughout the fiscal year.

1. Prepare, attend and follow-up to Calaveras Council of Governments (CCOG), and Social Services Transportation Advisory Committee (SSTAC) meetings as it relates to planning efforts (CCOG) – Quarterly
2. Review Federal Legislation and FTA guidance to determine how to utilize programs and consider necessary involvement, including completion and updates to the coordinated human service transportation plan (CCOG & Consultant) – As needed
3. Review and comment on technical correspondence, report on other transit issues with the Technical Advisory Committee (TAC) (CCOG) – As needed
4. Maintain ongoing consultation process with tribal governments regarding tribal transit needs to enable their participation in transportation planning and programming activities (CCOG & Consultant) – As needed
5. Participate in development of Transit Plans or Studies as supported by regional plans and prioritized by the CCOG (CCOG & Consultant) – As needed
6. Conduct annual Unmet Transit Needs analysis and outreach; develop Report of Findings (CCOG)– Annually
7. Review and evaluate transit service plans for consistency with SRTP recommendations and performance measures (CCOG & Consultant) – As needed
8. Encourage coordination amongst transportation service providers and utilize the Coordinated Humans Services Transportation Plan for guidance (CCOG) – As needed
9. Coordinate with the transit operator and community to maintain the Transit Website and implement technologies to improve public access to transit information and services (CCOG & Consultant) – As needed
10. Participate in outreach events to disseminate information and gather feedback on transit needs (CCOG & Consultant) – As needed
11. Coordinate and attend meetings with partner agencies, non-profit organizations, and other stakeholders on transit needs and planning issues (CCOG & Consultant) – As needed
12. Attend training sessions, conferences and public outreach for transit planning purposes (CCOG) – As needed

PROPOSED PRODUCTS

1. Meetings and Agendas – As needed
2. Unmet Transit Needs Finding Report - Annually

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Consultant Contracts	\$51,600	2026/27	LTF
Calaveras Council of Gov.	\$4,494	2026/27	LTF
TOTAL	\$56,094		

**City of Angels & County of
Calaveras Projects**

Work Element 26/27 – 14 REGIONAL GHG REDUCTION PLAN – PHASE II

PURPOSE

Complete the City of Angels Greenhouse Gas Reduction Plan (COA-GGRP) with preparation of the supporting environmental documentation.

The COA GGRP addresses major sources of GHG emissions in the City of Angels. A separate plan is pending for unincorporated Calaveras County. The plan represents the City's approach to addressing GHG emission reductions with the community. The Draft Plan was completed in November 2023, with funding and oversight from the Calaveras Council of Governments.

SB 375, (Chapter 728, Statutes of 2008) links land use planning, transportation planning, affordable housing and CEQA to greenhouse gas reduction. Additionally, future Regional Transportation Plan funding decisions will be tied to greenhouse gas reduction strategies, creating strong incentives for local governments to participate in these efforts in order to ensure funding for much needed transportation system improvements. Having an adopted Qualified Greenhouse Gas Reduction Plan can also facilitate approval of future development projects undergoing environmental review.

PREVIOUS WORK

Previous work includes a Greenhouse Gas Inventory to establish baseline levels of GHGs generated from all major emission sources in the City of Angels. A contract Amendment was executed in February 2023 to continue work on Phase II, GHG Reduction Measures and CEQA Documentation. The work resulted in a Draft City of Angels Greenhouse Gas Reduction Plan, including GHG Reduction Measures, released in November 2023 for public review. To finalize and adopt the plan, an environmental review must be conducted. The City is ready to proceed with preparing the environmental review in compliance with the California Environmental Quality Act (CEQA) as necessary to adopt the plan as a "qualified" Plan. Rincon Consultants, a member of the consulting team drafting the original plan, can provide that CEQA Documentation, an anticipated negative declaration, is necessary to complete the process to allow the City to consider adopting the Greenhouse Gas Reduction Plan.

TASKS/METHODOLOGY

1. Project Participation – Phase II of project: CEQA Documentation (Consultant) – Fall 2025
2. Review and circulate draft CEQA document, prepare response to comments (Consultant, City) – February – May 2026
3. Planning Commission and City Council presentations (Consultant, City) – Summer 2026
4. Adopt Plan (City) – Summer 2026

PROPOSED PRODUCTS

1. Request for Proposals (RFP) (Consultant) – August 2025
2. Contract Award (Consultant) – October 2025
3. Project kick-off meeting (Consultant, City) – January 2026
4. Administrative Draft Negative Declaration (Consultant) – Spring 2026
5. Final Negative Declaration with Response to Comments for public hearing (Consultant) – Summer 2026
6. Presentations and materials for public hearing at City Planning Commission and City Council (Consultant) – Summer 2026
7. Final City of Angels Greenhouse Gas Reduction Plan incorporating any changes based on the environmental process (Consultant) – Summer 2026

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Consultant Contract	\$5,000	2026/27	RPA
Consultant Contract	\$40,000	2026/27	*RPA Carry Over
TOTAL	\$45,000		

*Estimated RPA Carryover from FY 2025/26

Work Element 26/27 – 15 CALAVERAS COUNTY SAFE STREETS AND ROADS FOR ALL GRANT

PURPOSE

This work element is in support of the County for The Safe Streets and Roads for All grant program (SS4A) for Calaveras County. Completing this plan will provide the County with a Safety Action Plan needed to secure additional grant funding. The County of Calaveras will be the lead agency on the project. The Safe Streets and Roads for All program is a federal grant program focusing on improving roadway safety for all users by reducing and eliminating serious-injury and fatal crashes through development, refinement, and implementation of a comprehensive safety action plan. The SS4A program provides funding for two types of grants: (1) Planning and Demonstration Grants for comprehensive safety action plans, including safety planning and/or safety demonstration activities; and (2) Implementation Grants.

The project objectives are as followed:

1. Goal setting that includes a timeline for eliminating roadway fatalities and serious injuries
2. Planning structure through a task force charged with oversight of the Action Plan development, implementation and monitoring
3. Safety analysis of the existing conditions and historical trends that provides a baseline level of crashes involving fatalities and serious injury
4. Identifies and prioritizes locations across the network for implementation
5. Development of a comprehensive safety action plan that identifies the most significant roadway safety concerns in a community

PREVIOUS WORK

1. Calaveras County Systemic Safety Analysis Report (2018)
2. Received Highway Safety Improvement Program Grants for High Friction Surface Treatment, Thermoplastic Striping, and Road Sign Safety Audit Project.

TASKS/METHODOLOGY

1. Fiscal Management and Oversight – As needed
2. Project Kick-off Meeting with County of Calaveras, Stakeholders, CCOG
3. Evaluate and process reimbursement of invoices for match funding – As needed

PROPOSED PRODUCTS

1. Meeting Agendas and Notes – As needed (CCOG & Consultant)
2. Draft Plan
3. Final Plan

FUNDING SOURCES AND AGENCY PARTICIPATION:

Responsible Agency	Budget	Fiscal Year	Funding Source
Consultant Contract	\$96,620	2026/27	LTF
Calaveras Council of Gov.	\$2,913	2026/27	LTF

Work Element 26/27 – 17 TRAVEL DEMAND MODEL UPDATE

PURPOSE

The purpose of this work element is to update the Calaveras County Travel Demand Model. The Travel Demand Model (TDM) Update will modernize transportation planning tools to analyze traffic patterns, Vehicle Miles Traveled (VMT), and multimodal impacts in Calaveras County. The Project will update the TDM with detailed land use data, new trip generation rates, seasonal and weekend scenarios, and recalibration for improved accuracy. Recommended by the 2022 CCOG SB 743 Implementation Plan, it supports regional and state planning efforts, including CCOG's Regional Transportation Plan (RTP) and the Climate Action Plan for Transportation Infrastructure (CAPTI).

The updated TDM will also be used to develop Calaveras County's Road Impact Mitigation (RIM) fee program and nexus fee study to fund critical transportation improvements. The updated TDM will guide sustainable growth, support GHG reduction goals, and promote equitable multimodal connectivity.

PREVIOUS WORK

1. Calaveras County General Plan (2019)
2. Regional Transportation Plan (2021)
3. Calaveras County Greenhouse Gas Reduction Plan (2023)
4. SB 743 Implementation Plan (2022)
5. Coordinated Public Transit Human Services Transportation Plan (2024)
6. Contract Award and Kick-off meeting – Fehr & Peers (December 2025)

TASKS/METHODOLOGY

1. Project Management and Meetings, project kick-off meeting, Administrative Coordination, Monthly progress (CCOG and Consultant) – January 2026 – February 2027
2. Existing Conditions Analysis (Consultant) – Spring 2026
3. Model Updates and Enhancements (Consultant) – April – September 2026
4. Model Calibration, Validation, Sensitivity Analysis, and Performance Metrics (Consultant) – Summer-Fall 2026
5. Stakeholder and Public Engagement (Consultant) – Summer 2026
6. Draft and Final TDM Update (CCOG & Consultant) – October 2026 – January 2027
7. Board Review and Approval (Consultant) – February 2027

PROPOSED PRODUCTS

1. Meeting agendas and notes - As needed (CCOG & Consultant)
2. Quarterly reports and invoicing – Quarterly (CCOG)
3. Draft Model – Fall 2026 (Consultant)
4. Final Model - February 2027 (Consultant)

FUNDING SOURCES AND AGENCY PARTICIPATION:
